

Huge Variety of Dimensions

40-100 mm i.d.

preparative HPLC column

20 mm i.d.

semipreparative HPLC column

8 mm i.d.

semipreparative HPLC column

3.0, 4.0 and 4.6 mm i.d.

analytical HPLC column

1.0 and 2.0 mm i.d.

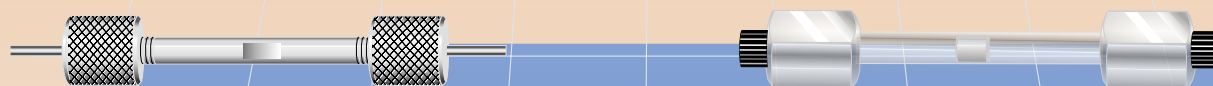

Microbore column

20 - 800 μ m i.d.

Capillary column

2.0 and 4.6 mm i.d.

High Speed column

300 μ m i.d.

Capillary High Speed column

Note! Refill of microbore, analytical or preparative columns saves costs over the life of the hardware.
